Writing

Recently our school has provided new sort of facility - the canteen for students. In this report I will express my classmates' and other students' opinions on that matter. I will also describe our suggestions on how to improve canteen's quality.

I have asked multiple students their honest and anonymous opinion on the new facility and have gotten the following results.

First of all, students have said that the atmosphere at the canteen is rather hospitable and friendly in general. Some of the students said that they are really fond of its' design and find it very suitable for a place like this. Others gave me an opinion that the main reason of their acception of the place is its' size. They said that its' wide enough to fit make room for all of the students who expressed their wish to visit this place.

Moving to the next topic of this report, which happens to be food, I would like to state my own opinion. Despite the excellent taste of the food, the range of meals could be a little wider. Some students expressed their opinion on its' prices. They say that some of meals are quite expensive for pupils. It is a valid point, but as we can see foods' price is based on ~~its~~ the quality of the product used to make it.

~~The last~~ At last, me and other students have discussed the matter of how to make the canteen a better place for everyone. We have ~~can~~ come to conclusion that it would be ~~great~~ <sup>great</sup> to place some vending machines with various snacks here. It would increase the level of students' interest and double the number of canteens visitors.  $8+4+2+0+2$
