New canteen

Appearance

Our school has finally opened a new canteen! It has been a long time since the old one was closed, so students had to bring homemade snacks to school. I have always ~~forgot~~ ^{forgot} my meal at home, but now I do not worry about being hungry all day long. A new canteen is a large room with enough space for 100 students. Yellow tables located in the centre and blue chairs contrast with orange walls. In the left corner there is a door to the kitchen, where meals are cooked.

Food

Friendly atmosphere and smiling staff make having a lunch a real pleasure. Besides tasty food, there is a variety of meals served during the week. Due to the vegetarian menu, one can easily find a meal to eat. Apart from that, the prices are much lower than average. My friend spends 15 \$ for breakfast in her school while the same meal in our canteen costs 8 \$. Incredible benefit!

Time shortage

Though my classmates are satisfied with the canteen, there is one thing they do not want to deal with. When one is going to buy food, he should wait ^{for} 15 minutes in a queue. It is ridiculous as students have only 10 minutes break!

Recommendation

The problem can be solved by inviting new employees to the canteen so that more than 1 person ^{will} sell meals. Another probable way to solve the problem is to give students more time for the break. It will allow teens not to hurry during lunch and give staff the opportunity to prepare the canteen for hungry students.
