OUR NEW CANTEEN

10+3+2+1+2

Introduction

Many pupils, studying at our school, have been looking forward to a new canteen for several years. Finally, it has been opened recently. All students have already visited it and have tasted some dishes. In this report I am going to point out the advantages and disadvantages of our canteen that my classmates and I have noticed.

Size

Our new canteen is huge. Therefore, practically everyone can enjoy his meal there at the same time. Some years ago, there was not enough space, only two tables were there and it was hard to meet someone new in the canteen. However, now there is a chance to get acquainted with people while having breakfast or lunch.

Atmosphere

The atmosphere of our school's canteen is inspiring. Its up-to-date interior enables you to relax and forget about tons of projects and tasks. What is fascinating is the mixture of modern furniture and many flowers around. Sometimes it feels like you are in a real garden.

Food

The canteen offers students a great variety of dishes from different countries. We can taste have Russian blini with honey and Italian pizza. Everyone may find something that he will like.

Prices

The prices are really high. The majority of students cannot afford the dishes that they are desperate to taste. Instead of eating what they want, they have to purchase something cheap, which is usually appears to be unhealthy. For instance, ~~beer~~ coca, sweets, ~~sweets~~ hamburgers.

Suggestions

My classmates and I would like to advise our school to ~~decrease~~ ^{lower} the prices in our canteen. It is obvious that the money paid for meals is a part of school's income. However, we are convinced that health and well-being of students should be considered as the main aim of our establishment.

Conclusion

To sum up, my classmates and I are satisfied with our new canteen. We believe that the above-mentioned ^{problem of the prices} disadvantages will be solved soon.
