What I hope to be doing in ten years' time

"What do you hope to be doing in ten years' time?" - asked me my sister when we were watching TV at home. To be honest, I have thought about this question for two weeks. And now I'm really happy because I can answer it.

In ten years I would like to be a student of Oxford - the oldest university of England. I hope to be studying there because it's one of the most prestigious universities in the world. Also, it is my dream - to live in England. I would ^{like} to study economics because I love this subject. I will have a lot of opportunities in my life with this education as well.

Now I'm a student of an ordinary Russian school. I have only good marks at school. I study English, French, German and economics a lot. And I think that if I continue developing myself I will be able to be a person who I want to be. I work hard, I study a lot, I believe in myself. And that's why I'm sure that these changes in my life will be expected. Now I'm ~~the~~ an ordinary Russian girl and in ten years I am the best student of Oxford.
