What I hope to be doing in ten years' time

Every teenager of my age begins to think about his future. What occupation to choose? What university to go? Our head is stuffed with millions of such questions.

Let's take me as an example. Nowadays there is a great variety of new unusual jobs. But I decided to choose something very traditional and widely spreaded — medicine. Though medicine has a tremendous spector of different kind occupations, I haven't made a decision yet. ~~The~~ The only thing I'm sure with is that I will do all my best to get education somewhere abroad. To be honest, I am dreaming about Czech Republic. It's culture, cuisine, people and architecture is breathtaking.

My present life differ from my life I hope to have in the future. The place where I live now is very far from my dream country and there is still not enough knowladge for my occupation but at least I would do everything I can to make my dreams come true.

To sum up, everyone has plans for their future but not all these plans can become a reality. It depends only on you whether you work hard to improve your life or to sit doing nothing.
