What I hope to be doing in ten years time

In my opinion it will be change a lot in our world in ten years time, but we can imagine what it will be like.

My family and I are concerned about my future. I have a fascination for learning language so I think I'll become a journalist. I also want to travel and to write an article. I believe this job can useful for society.

Of course, my family will be with me in the future and I hope to have two cats and a dog at home. I'd prefer my own house with a small garden where my dog could walk.

Ever since I can remember I have never been to Italia and Germany. I think I will go there when I become older.

Why do I want to live difference than now? To my view everyone should has a purpose and step by step go to it. My dream is to live like I wrote before and I have reasons for it. Now I am learning at school, going for a walk with my friends and I like my life. But if you think about your future, you will want to make your life better.
