Purpose

School canteen

The aim of this report is to analyse work of school canteen and also to give some recommendations.

Atmosphere

My school has recently opened a new canteen. It is really nice. There you can see pastel curtains in the windows; white tables and chairs. So, the atmosphere is pretty nice. The canteen is large. So there are a lot of tables and chairs for all our school and a kitchen to cook food for us. I like pastel colors and our canteen contains this colors, so I excited because of it.

Food

What is more, in our canteen there are a lot of delicious food. Usually students from our school have lunch and breakfast there. You can buy a porch and tea or coffee for breakfast. For lunch you can buy a soup, tea and rice or potato with meat or fish. I like that if you ~~don't~~ do not want to eat you can buy a bun or pancakes as a snack with some tea or coffee moreover, in our canteen prices are affordable

Improvement

In the canteen you can pay only by cash. And for a lot of students it is ~~no~~ not comfortable for example, I usually do not have a cash because in 21 century usually people have all their money in their ~~at~~ credit cards. So, I think that our school should buy terminals for credit cards.

Conclusion

In the end of this report, I would like to say that I enjoyed our new school canteen and I hope that our school buy some terminals for credit cards and conditions in our canteen become more comfortable after that.
