What I hope to be doing in ten years' time

My name is Igor Cheng. I am currently almost thirteen years old. So in ten years' time I would be around twenty three years old. By then I would've already finished school and possibly even university. I hope that I would apply for a job as an architect or maybe even create my own company and become co-CEO's with my brother. I probably would move to Canada and start the buisness there. In Canada it is very beautiful. The people are very friendly, the weather is not too hot in the summer and not too cold in the winter. This would be my dream.

My life then would be very different from now. I would be an adult and would be able to make my own decisions. The older a person gets the more responsibility he has. As a child your parents or your guardians would be the ones that do the work for you. But when you grow up you learn to take all of that responsibility. That is the story of life.
