What I hope to be doing in ten years' time.

Have you ever thought about your life in the future? If so, you are not alone, because it is one of the most important questions of ~~a lot~~ many teenagers nowadays!

I think about it so often, because now I am in 8th grade and in 3 years I will go to the institute and choose the way of my life. I want to be a very successful person with a well-paid job and a big family. I hope, that in some years I will live in the capital of our country - Moscow. Because in this city I can develop my skills so fast. My goal for now is to study in a fantastic institute - MGU. I hope, that when I finish it, I will make my family and get a good job. I think, that in ten ~~years~~ years I will be a successful person with the happy family and the job, which I love!

Now my life is great! I live with my fantastic parents and a little sister - Tanya. I go to the best school of our city now and I have everything, that I want. The reason why I want to change my life is that I need to become better and better and ~~in the capital of our city I can~~ I have to go to another places to study something new for me! I will be a successful person, if I study hard!
