Too Many Toys?

Nowadays more and more people become convinced that some parents buy their children a large number of toys to play with. But are there any advantages or disadvantages for the child to have a large number of toys?

On one hand, some parents love their children so much that they're ready ~~(to do or)~~ to buy everything for them. But in some cases it only harms, because some children that live in such families don't want to do anything themselves. So they know that it's always possible to phone their parents who are always ready to do everything for them. And as you can see, it's a great disadvantage for such children and parents.

On the other hand, some children that live in such families are always helpful, ~~(polite)~~ and attentive to their parents. They are also ready to do everything for them, because they want to thank them for their childhood. Of course, it's an advantage for such children and parents.

As far as I'm concerned, I didn't use to have lots of toys in my childhood, but I try to do everything for my parents, because I was really happy to play with the toys that I have.

Taking into consideration all mentioned above, I'd like to emphasize that it's only parent's choice either to buy a large number of toys or not. But I feel that it is better

A - 08 - 09

to buy only usefull toys for the children. ²¹⁰
