Tokyo Business Motel: a Modern Oasis in the capital of Japan

During my recent trip to Tokyo my mother and I decided to stay in Tokyo Business Motel. Located in the bustling city centre, this was a perfect place for us, ~~best~~ because underground was nearby as well as shopping centres, restaurants and souvenir shops.

Our hotel room was quite little, minimalistic, but at the same time cozy, with contemporary Japanese decor. The plushy bedding and blackout curtains ensured comfortable night sleep, which is important for businessmen and tourists alike, and the stunning view of iconic Tokyo SkyTree ^{in the window} was mesmerizing.

One interesting fact about Japanese hotels is dedication to cleanliness and efficiency. Hotel staff were highly professional and accommodating making hotel rooms spotless and trying to solve any ~~request~~ of travellers' requests as soon as possible. There were all of necessary amenities such as ironing and what made me wonder is ^{SP} a flashlight in our hotel room, it could help in case of building devastation from the earthquake.

I thoroughly enjoyed my stay here, so there's my personal piece of advice: make reservations in advance, because this hotel tends to be in high demand. I wish I had booked ~~my~~ ^{our} room earlier, I would have spent much less money.

Overall, convenient location and top-notch service make Tokyo Business Motel one of the best options where both fellow travellers and office workers during their business trip can stay for a weekend, whole week or even a month.
