The best way of learning English

1P Nowadays knowing foreign language is an important skill for everyone. In my opinion, English language is one of the best languages to study. It is the language of business, technologies, trade, politicians and so on. That is the reasons why many people start learning it from the childhood. I am not an exception. 5-3

2P As for me, the main reasons for learning English are the opportunities it can give. With the help of knowledge of this language, I will be able to create a wonderful career. Whatever job I'll choose, English will help me, because there is a lot of literature on different themes on English everywhere. Moreover, it is the main language of international companies. 114

3P Today, the thing I like most about learning English is an opportunity to communicate with people from ~~everywhere~~ all parts of the world without language barriers. I am a sociable person and I'm fond of making new relations. 1831

Well, for people who are starting to learn English I would recommend to practise a lot. Although, the grammar is important, I think ~~it is~~ it is important to pay ^{more} attention on vocabulary and speaking. You can spread your vocabulary with English songs, films and books. 54

4P To sum it up, English is the ~~language~~ world wide language and I'm happy to learn it.
