A new experience

5p. My stay at the "Sky High Hotel" in New York can only be described as wonderful, because it was filled with thrilling moments and memorable people. This review will give you an in-depth analysis on the famous luxurious hotel.

This hotel is located on the top ten floors of a skyscraper, which means the view from up there is simply jaw-dropping. Interestingly, "Sky High" is one of the oldest skyscraper hotels, yet it has a modern and innovative style. The staff members were nothing short of exceptional, as they provided services at a very high standard. Funnily enough, I stayed next door to the owner, who lives in his own hotel!

Unfortunately, my experience here wasn't perfect. My main issue was with the elevators. Usually, I would expect an abundance of lifts for ~~such~~ such a large building, but this wasn't the case. As a result, it took forever to get down to the first floor. Sometimes you even had to take the stairs, which wasn't an option for the elderly.

Considering everything said above, this hotel left a positive impact on me. The upsides heavily outweighed the downsides. I strongly recommend staying at the "Sky High Hotel". For those who decide to visit in the summer, I suggest going to the swimming pool on the roof. It is a once in a lifetime experience.
